A STAGGERING GAP

By the time they reach 6th grade, kids born into poverty are likely to experience **6,000 FEWER HOURS** of learning than their middle-class peers. This is equivalent to **FIVE YEARS** in the classroom.

To help close this gap, we created an expanded learning time model that reimagines the school day in high-needs communities.

OUR MODEL FOR EXPANDED LEARNING

More hours in the school day. More role models in the classroom. More opportunities to experience joy in learning. This is what curious and creative kids need to grow into confident, successful adults.

EXPAND THE SCHOOL DAY

Adding 2.5 hours each day; closing the learning gap by 450 hours/school year

ENGAGE THE COMMUNITY

Bringing additional role models - tutors, coaches, college students and teaching artists - into the classroom

ENHANCE THE LEARNING

Balancing curriculum with the arts, sports, STEM and character-building enrichments

THE RESULTS

We support a network of nearly 100 school-community partnerships throughout the Bronx, Queens, Brooklyn, Staten Island and Manhattan that are implementing our model for expanded learning - and making an impact on student outcomes.

Reached more than
920,000
students since 1998

84%
of students show growth
in social & emotional
skills

**46% MORE
GROWTH**
in English language arts
than students citywide

Improved attendance at
3X THE RATE
of schools citywide

OVER 90%
of our parents, teachers and
students feel strongly connected
to their school

“Expanded learning gives kids healthy experiences that enable them to confidently seize whatever opportunity comes their way. The academic boost is a welcome benefit.”

*-- Dr. Ramón González, Principal of the
Laboratory School of Finance and Technology (x223)*

HOW WE WORK

In 1998, we created the nation's first citywide system of K-12 after-school programs. Since then, we've increased focus on the intersection of education and enrichment. This makes for a more aligned and engaging school day.

We brighten the futures of children throughout NYC in three important ways:

CAPACITY BUILDING

Strengthening the quality of programs by training more than 4,000 educators from 1,100 schools & community organizations each year; coaching leaders of schools and community organizations aspiring to our model of expanded learning; providing funding to schools and CBOs

RESEARCH & DEVELOPMENT

Evaluating a broad range of enrichment programs and incubating new ways to foster skills like STEM, literacy and social and emotional learning in order to improve education for tens of thousands of kids in NYC

ADVOCACY

Collaborating with policymakers locally and nationally to ensure public support for expanded learning time and school-community partnerships
